20a. How does the Committee accomplish its purpose?

The Proposal Review Panel in Materials Research evaluates proposals and conducts site visits, and provides written summary recommendations on those proposals. The panels recommendations play a major role in the program staff's decision process to fund or decline competing proposals. The merit review panels and site visits covered a wide range of different types of programmatic as well as focused proposals (Research Experience for Undergraduates - Sites, CAREER, and the like. These research proposals and site visits can most cost-effectively and efficiently be done by Panel Review.

20b. How does the Committee balance its membership?

The composition of the panel covers a very broad spectrum of scientific and engineering expertise necessary to properly evaluate the competing proposals, and includes industrial,

academic and governmental laboratory researchers and educators, with increasing participation by women, minority and disabled scientists.

20c. How frequent and relevant are the Committee Meetings?

The Proposal Review Panel held 95 meetings in FY 2018. The number of meetings required each year are related to the number of proposals received and the number of panels needed to review the proposals.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

Although individual evaluation (i.e., mail review) of proposals is the usual method employed for merit review, combination of mail review and follow-up by panel review provides a more comprehensive basis and rationale for selecting awardees, since panel discussion of competing proposals focuses on strengths and weaknesses of competing proposals, and allows cross comparison of all proposals on a level playing field.

20e. Why is it necessary to close and/or partially closed committee meetings?

To review proposals that included information of a proprietary or confidential nature, including technical information; financial data such as salaries; and personal information concerning individuals associated with the proposals.

21. Remarks

None

Narrative Description

The NSF mission is set out in the NSF Act of 1950 authorizes and directs the Agency to initiate and support: basic scientific research and research fundamental to the engineering process; and science and engineering education programs at all levels and in all fields of science and engineering. The involvement of knowledgeable peers from outside the Foundation in the review of proposals is the keystone of NSF's proposal review system. Their judgments of the extent to which proposals address the merit review criteria are vital for informing NSF staff and influencing funding recommendations.

Cost Savings Comments

The use of panelists to review proposals for the Agency is an invaluable asset. The cost of obtaining the expertise, insight, and information received by the Division using alternative methods, such as hiring the expertise as full or part-time employees, would be extremely high.
